# THE BUSINESS

Sinar Mulia was established on November 7th, 2003. The company's business is to provide and to serve what the customers needs and make it them satisfied.

Sinar Mulia is a national company that actively involved in supplying to our major customers, with the mission of serving the industrial and offices.

Sinar Mulia place great emphasis on prompt and sincere attention to all customers' needs. Your business is our concern.

We have successfully completed some construction projects Hook up off-shore & on-shore for Electrical, Instrumentation, Fire Protection, Mechanical & Piping works with the following concepts:

- ✚ Project Management
- ✚ Site Management
- ✚ Supervisory Capability
- ✚ Safety Priority
- ✚ Commitment to Quality

Our team construction will satisfy our client with good result.

# THE BUSINESS

Sinar Mulia is engaged in full range of All activities covering Construction services, Maintenance, Testing Commissioning & Total Shutdown from the smallest up to the large project in all fields as listed below;

- + Oil & Gas
- + Power Generation
- + Chemical & Petrochemical
- + Pulp & Paper
- + Other Industrial

Sinar Mulia management firmly believes that their success is measured by our client success. That's why our Company is capable of assuming full and sole responsibility for each project, meticulously controlling the quality, safety, schedule and budget to ensure complete customer satisfaction.

Sinar Mulia believes in the necessity of effective integrated project control and management. The construction effort must itself be an integrated effort. At Sinar Mulia, each member of the team understands his or her relationship and the impact with the other team members.

The controlling of project costs is the responsibility of the total project

# VISION & MISSION

## VISION

Our Vision is Sinar Mulia become leading contractor company in Indonesia for Electrical, Fire Protection and Instrumentation system.

## MISSION

Our Mission is to deliver a great value and great quality of our services to make our customer satisfy to keep our long terms business.

## ELECTRICAL

On the Electrical works Sinar Mulia have experience in Construction Onshore, Hook up Offshore, Maintenance & Testing Commissioning project with activities as follows:

- ✚ Installation of HV Panel, MV Panel, MCC Panel, Lighting Panel & Power Distribution Panel.
- ✚ Supply and Installation of Lighting Pole, Installation Lighting Fixtures, Installation Motor Control Station, Installation Transformer, Installation UPS, Installation Grounding System.
- ✚ Installation of Support Cables, Cable Tray and Conduit, Pulling Cables, Glanding & Termination.
- ✚ Installation Telecommunication system, MDF Panel, MATV, CCTV, Paging System c/w accessories
- ✚ Supply, Installation, Splicing & Termination of FIBER OPTIC Cables c/w accessories
- ✚ Provide Electrical Technician for Maintenance, Testing Commissioning and Total shutdown

We will ensure that all electrical material to be supply, fabrication and installation will be accordance with document, datasheet, specification and drawings approve for construction.

# OUR CAPABILITY

## FIRE PROTECTION & GAS DETECTION SYSTEM

On the Fire Protection & Gas Detection system Sinar Mulia together with our PRINCIPAL, can provide services from Engineering Basic design, Detail design, provide complete package fire & gas system, upgrading, installation, testing commissioning & start up.

- + Supply & Installation of Smoke Detector, Heat Detector, Gas Detector, Sprinkler, Deluge Valve, FM200 & VESDA system
- + Supply & Installation Hydrant System, Hydrant Panel, Hydrant Pump, Fire Alarm Control Panel, Mimic Panel alarm, Local Panel Alarm, etc.
- + Supply & Installation of Piping c/w accessories for Fire Fighting system
- + Fabrication & Installation of Support Cables, Cable Tray and Conduit, Pulling Cables, Glanding & Termination
- + Provide Fire Alarm Technician for Maintenance, Testing Commissioning and Total shutdown

We will ensure that all Fire system material to be supply, fabrication and installation will be accordance with document, datasheet, specification and drawings approve for construction.

# OUR CAPABILITY

## INSTRUMENTATION

On the Instrumentation works Sinar Mulia have experience in Construction Onshore, Hook up Offshore, Maintenance, Upgrading, Calibration & Testing Commissioning , Design & Upgrading DCS & PLC Project.

- ✚ Installation of Field Instrument such as; Level Transmitter, Flow Transmitter, Pressure Transmitter, Temperature Transmitter, Control Valve, On off Valve, Analyzer, Level Switch, Pressure Switch, Flow Switch, Proximity Switch, Pressure Gauge, Level Gauge, Temperature Gauge & Flow Indication.
- ✚ Fabrication and Installation of Stanchion, Frame Junction Box, Installation DCS console, PLC Panel, Installation UPS, Installation Grounding System.
- ✚ Fabrication & Installation of Support Cables, Cable Tray and Conduit, Pulling Cables, Glanding & Termination.
- ✚ Provide Instrument Technician for Maintenance, Testing Commissioning and Total shutdown

We will ensure that all instrument material to be supply, fabrication and installation will be accordance with document, datasheet, specification and drawings approve for construction.

# OUR CAPABILITY

## MECHANICAL & PIPING

On the Mechanical & Piping works Sinar Mulia have experienced to supply material and manpower such as: Piping Supervisor, Pipe Fitter, Mechanical Supervisor, Millwright Supervisor, Millwright skill, Welder and QC to do Construction Onshore, Hook up Offshore and Maintenance Total Annual Shutdown

- ✚ Supply Material, Supply manpower for Fabrication, Erection, Setting Equipment & Installation

We will ensure that all Piping material to be supply, fabrication and installation will be accordance with document, datasheet, specification and drawings approve for construction.

Our company could supply manpower for Construction, Maintenance and Total Annual Shutdown as follows:

Project Managers, Engineers, Quality Control, Safety Officers, Drafters, Supervisors, Foreman, Instrument Technicians, Instrument Fitters, Electricians,

Crane Operators, Pipe Fitters, Mechanic, Welders, Scaffolders, Riggers, Painters, Logistics.

Our highly qualified and skilled personnel consists of experienced qualified for industry, who deliver highly efficient and effective measures as our customer required.

# SAFETY POLICY

**Our Safety policy is;**

**“SAFETY IS OUR PRIORITY & HABITS AND THE RESPONSIBILITY OF SAFETY IS BELONGS TO EVERYONE”**

Sinar Mulia we are committed to providing a safe work environment for our employees. We have developed an extensive safety program both to meet this commitment and to comply with Indonesia Government for

Sinar Mulia takes a proactive approach to safety. We provide personal protective equipment, supply proper tools for the job, test equipment on .

Safety is part of every project we do. Our managers, engineers, and superintendents plan each job with safety in mind. Threats to safety are anticipated and resolved before the job begins.

We also review and incorporate the customer's safety program into ours so that the customer can be confident that we have satisfied all .

An on-site safety representative, frequently one of our field engineers or superintendents, enforces our safety program. Weekly meetings are held to discuss specific employee or management safety concerns for that jobsite. At the request of the customer or on projects of great magnitude, we will assign a full-time safety engineer to oversee day-to-day operations.

## ➔ QUALITY ASSURANCE

Quality workmanship most important to Sinar Mulia in all phase of its operations. Repeat custom validates and drives business. Our continuously refined quality control manual provides the formal guidance for our company goal in acquiring ISO 9001 certification.

## ➔ BUSINESS PRINCIPLE

We aim to always exceed customer's expectations. Serving our customers and meeting their needs is what Sinar Mulia is all about.

Sinar Mulia continuously reviews and improves processes. The result is a highly professional and learning organization.

We recognize that clients are our most valued asset, the very reason for our existence. Therefore we consider all clients as partners to be treated with the highest respect.

Because of this Sinar Mulia will leave no stone unturned in its efforts to meet customers needs, and to go beyond and exceed client expectations time and again.

We also supplying materials required in industrial as follows;

1. Piping & Mechanical Product.

- ✚ Piping Material & Fittings ( SS & CS ).
- ✚ Safety Valves, Gate Valves, Check valves, Strainer.

2. Electrical Product

- ✚ Lighting Pole & fixtures.
- ✚ Cable Tray, Conduit, Power Cables, Fiber Optic Cables.
- ✚ Trafo, Panel Distribution, Junction Box, Cable Gland.

3. Instrument Product

- ✚ Field Instrument, Transmitter, control valve, Flow Switch, Level Switch, Pressure Gauges, Temperature Transmitter.
- ✚ Junction Box, Instrument cables, Calibration Equipment, Tube & Fittings, Instrument Valve, Heat Trace Tube.

4. Fire System Product

- ✚ Pipe & Fittings.
- ✚ Deluge Valves, Hydrant Box, Mimic Panel, Heat detector, Gas Detector, Fire Alarm Panel, Smoke detector, Sprinkler.
